## pM-100 / fasTTest

### Blood Glucose Monitor Device

Recognized for its ease of use and quick response time, the plusmed fasTTest Blood Glucose Monitoring System is designed to process accurate results utilizing only a small amount of blood for in vitro diagnostics. The plusmed fasTTest Blood Glucose Monitoring System is intended for use in the home and in professional settings to monitor whole blood glucose levels obtained from the fingertip, palm and forearm. Backlight design enables people to read the test result even in the dark.

## pM-100 / fasTTest

### Blood Glucose Test Strips

The plusmed fasTTest Blood Glucose Test Strips are used with the plusmed fasTTest Blood Glucose Meter for quantitatively measuring glucose (sugar) in whole blood obtained from the fingertip, palm and forearm. The plusmed fasTTest Test Strips are for testing outside the body (in vitro diagnostic use).

**plusmed**  
health management

- 1 For testing glucose in capillary blood
- 2 Tiny blood sample size (0.5 µl)

Order Code: M020752

Product No:5060186753621

## fasTTest

### Blood Lancets

Plusmed fasTTest blood lancets are used with lancing device for taking blood sample. Plusmed fasTTest blood lancets are disposable and for single patient use.

**plusmed**  
health management

- 1 Painless application due to thinness
- 2 Needle gauge: 30G
- 3 More reliable due to gamma sterilization method

Order Code: M021962

Product No:8698864013575

## FASTFINE

### Insulin Pen Needles

Pen needles are used in conjunction with injection pens to deliver injectable medications into the body. Insulin pen needles come in a variety of lengths and widths to suit all body types. From 8 mm to 4 mm, the needle length you choose is likely to be dictated by your size, children being likely to benefit from the shorter 4 mm size. Each pen needle is embedded in a plastic hub that can attach to the pen.

- 1 Sterile
- 2 Fits all insulin pens
- 3 Non toxic, non pyrogenic
- 4 Silicon coated
- 5 Available in 3 different sizes
  - 32 G (0.23 X 4 mm)
  - 32 G (0.23 X 5 mm)
  - 31 G (0.25 X 6 mm)
  - 31 G (0.25 X 8 mm)

## ACCURO

### Insulin Pen Needles

Plusmed Accuro blood glucose monitor system, safe and accurate measurement and can easily be used in home use and professional areas. Thanks to its large screen, the blood glucose measurement result can be easily read.

- 1 Smart code key
- 2 Measurement in 8 seconds
- 3 Measurement with 1,4 µl blood sample
- 4 300 measurement memories
- 5 1,7,14,30 daily measurement average
- 6 Battery warning symbol
- 7 Automatic on/off

Order Code: M020701  
Product No:4710627332038

## ACCURO

### Blood Glucose Test Strips

Plusmed Accuro is used with the Plusmed Accuro blood glucose meter to digitally visualize the absolute amount of glucose in the blood, finger tip, palm or forearm

- 1 Noble metal electrode
- 2 Glucose measurement of capillar full blood
- 3 2x25 strips in the box

**plusmed**

Order Code: M020703  
Product No:4710627330263

## plusTHERM

### Infrared Non-Contact - Digital Thermometer

This thermometer measures body (Temple measurement) and object temperatures (Milk in a baby's bottle, bath or surface) with infrared technology. This enables you, for example, to take babies' temperature without disturbing their sleep.

- 1 1 second measurement
- 2 LCD display with backlight
- 3 Fever alarm
- 4 10 memories
- 5 °C or °F switchable
- 6 Automatic shut-off

Order Code: M021645  
Product No: 8698864007604

## pM-GT01

### Infrared Non-Contact - Telephoto Thermometer

This advanced product uses an infrared detector to detect body temperature from the temple for adults & children and can be used both at home and hospitals. The thermometer is designed for practical use. It can also be used to measure any temperature other than human body, such as the room temperature or your baby's milk. This Temple thermometer has been clinically tested in several well-known teaching hospitals based on the protocol of ASTM E1965-98:2009 regulatory standard and is proven to give the same measurement with oral temperature detectors.

- |  |  |
|--|--|
| 1 1 second measurement   | 5 9 memories   |
| 2 Body (temple), object (bath water, feeding bottle, etc.), room temperature | 6 °C / °F switchable                                     |
| 3 Backlight  | 7 Auto shut-off  |
| 4 Auditory fever alarm   | 8 Low battery indicator                                  |
|  | 9 Telephoto temperature measurement distance within 10cm |

Order Code: M029402  
Product No: 8698864011403

## pM-101

### Pen Type - Digital Thermometer

This thermometer can measure the temperature in various locations on the body which maintain a fairly stable temperature (oral, axillary, rectally). Display readings to great precision (0.1 °C or 0.2 °F).

- 1 ± 0.1°C Accuracy
- 2 Fast response
- 3 Memory function
- 4 Auto shut-off

Order Code: M029422  
Product No: 8698864013049

## pM-596

### Automatic Talking Blood Pressure Monitor

pM-596 Blood Pressure Monitor, helps you to find out systolic and diastolic blood pressure easily with voice guidance in six languages.

- 1 Wide LCD screen
- 2 2x60 memories with date and time for 2 users
- 3 6 languages chooseable
- 4 Hypertension risk indicator
- 5 Irregular Heartbeat Detector (IHB)
- 6 Average of last 3 readings
- 7 Low battery indicator
- 8 Auto power off

Order Code: M021615  
Product No:8698864013070

## pM-K02

### Automatic Blood Pressure Monitor

Real Fuzzy Technology determines ideal cuff pressure based on one's systolic blood pressure and arm size. Users no longer need to pre-set the inflation level before measurement. The "Movement Detector" helps reminding the user to remain still and is indicating any body movement during measurement.

- 1 Movement detector
- 2 Hypertension risk indicator
- 3 Irregular Heartbeat Detector (IHB)
- 4 Average of last 3 readings
- 5 90 memories
- 6 Easy to use
- 7 Latex-free patented universal cone cuff

Order Code: M029302  
Product No:8698864007574

## pM-K05 Jumbo

### Automatic Blood Pressure Monitor

With the pM-K05 Jumbo, blood pressure can be measured easily and safely every day. Thanks to the large LCD screen, the measurement result can be read easily.

- 1 Hypertension risk indicator
- 2 Irregular Heartbeat Detector (IHB)
- 3 Average of last 3 readings
- 4 2x120 memories
- 5 Easy to use

Order Code: M028732  
Product No:8698864013452

## pM-795

### Automatic Talking Wrist Blood Pressure Monitor

pM-596 Blood Pressure Monitor, helps you to find out systolic and diastolic blood pressure easily with voice guidance in six languages.

- 1 2x60 memories with date and time for 2 users
- 2 6 languages chooseable
- 3 Hypertension risk indicator
- 4 Irregular Heartbeat Detector (IHB)
- 5 Low battery indicator
- 6 Auto power off

Order Code: M021616  
Product No:8698864013520

## pM-B51 Plus

### Automatic Wrist Blood Pressure Monitor

This device uses the oscillometric method to automatically measure systolic and diastolic blood pressure as well as heart rate. (Wrist circumference ranging 135 ~ 195 mm)

- 1 Irregular Heartbeat Detector (IHB)
- 2 WHO risk category indicator
- 3 120 memories with date and time for 2 users
- 4 Average of the last 3 measurements

Order Code: M028735  
Product No:8698864013490

## pM-A01S

### Aneroid Sphygmomanometer

Blood pressure measurements with the PM-A01S are done using the cuff / stethoscope listening method. It provides more reliable measuring.

- 1 300 mmHg non-stop pin manometer
- 2 D-ring nylon cuff
- 3 Heavy duty metal gauge
- 4 Lightweight exterior single head stethoscope
- 5 Chrome plated brass air relief valve

Order Code: M029330  
Product No:8698864013230

## pM-N01

### Heavy Duty Piston Compressor Nebulizer

The proprietary adjustable valve is able to deliver medications of different viscosity level according to every user's conditions without exchanging parts. The Valve Adjustable Technology (VAT) bottle allows users to adjust different levels of nebulization rate 0.15 (closed) / 0.5 (fully opened) ml/min at consistent particle size. Higher nebulization rate (fully opened) is for higher viscosity medications and higher breathing capacity user while lower nebulization rate with closed valve will be more appropriate for kids/infants with lower breathing capacity. VAT is recommended for respiratory disorders such as Chronic Obstructive Pulmonary Disease (COPD) and asthma as well as intensive use in general.

- 1 Small Particle Size
- 2 Patented Valve Adjustable Technology
- 3 Fine ventilation design to ensure heavy duty use
- 4 Powerful Piston Compressor

Order Code: M029502

Product No:8698864007598

## pM-N04

### Piston Compressor Nebulizer

pM-N04 is perfect in craftsmanship with high level quality. Nebulizer has attractive design, ideal for all ages. There are two compartments for keeping nebulizer kits and power cord. Powerful and high quality motor and piston ring assures the long time working.

- 1 Average Nebulization Rate > 0.25ml/min
- 2 Mode of Operation: continuous > 24 hours
- 3 Liter operation flow: 5-8 LPM

Order Code: M029551

Product No:8698864012714

## pM-KN01

### Stationary Oxygen Concentrator

pM-KN01 Oxygen Concentrator, adopt pressure swing adsorption principle, which can separate oxygen, nitrogen and other gas from the air. As soon as power is connected, the oxygen that meets medical use standards can be separated from air constantly. Planned life of the whole generator reaches up to 20,000 hours. There is no influence on indoor oxygen percent during the generator operating.

- ① Oxygen Concentration: 93%±3%pM-KN01 Tag EN
- ② Oxygen Flow: 0-5 L/min
- ③ Outlet Pressure: 0.04-0.07 Mpa
- ④ LCD Display
- ⑤ Alarm

Order Code: M023023  
Product No:8698864012950

**plusmed**  
health management

## pM-KN04 Smart

### Integrated Nebulizer Oxygen Concentrator

PM-KN04 Smart Oxygen Concentrator offers high technology with approved patented features like Sensitive Oxygen Percentage Display. During providing %93 purity of oxygen, nebulizer treatment can be greatly achieved. Two function in one device approves comfortable therapy in the same time. Integrated SD Card memory helps doctors to check treatment. Safety is one of the main concerns with its fire valve.

- ① Working with stable oxygen level for 24 hourspM-KN01 Tag EN
- ② Patented oxygen concentration display technology
- ③ Entegrated nebulizer
- ④ SD Card Memory
- ⑤ Fire safety
- ⑥ Oxygen concetration: %93±3
- ⑦ Oxygen flow: 0-5 lt/min

Order Code: M027123  
Product No:8698864012967

**plusmed**  
health management

## pM-KN03T

### Portable Oxygen Concentrator

pM-KN03T Portable Oxygen Concentrator uses the principle of the pressure swing adsorption technology. The device separates the high-intensity oxygen (90%±3%) continuously from the air at normal temperature, when the power is on. Concentrator can be operated easily and used quickly; the flow of the machine can be adjusted to the preferred level and work for 24 hours nonstop. Oxygen support method is unique and is superior from the other liquefied and high-pressured oxygen systems.

- ① Oxygen density: 93%±3%
- ② Breathing sensor
- ③ Alarms: 1. Low battery / 2. No breathing / 3. High breathing rate / 4. Technical failure / 5. Power failure / 6. Low oxygen concentration / 7. High temperature / 8. Maintenance  
Battery charge indicator
- ④ Weight: 3 kg

Order Code: M027123  
Product No:8698864012967

## pM-CP01 / CP01 PLUS

### Continuous Positive Airway Pressure

CPAP series is equipped with required alarm systems to provide continuous treatment. Since it has a weight of 400gr, it is also suitable for travels.

- 1 Pressure range: 3 - 20 cmH<sub>2</sub>O
- 2 Alarm signaling the removal of the mask
- 3 Advantage of easy installation
- 4 0-60 min ramp time
- 5 Lightweight
- 6 Quiet Operation
- 7 6 level temperature adjustment
- 8 Lighted LCD Screen

## pM-7E A

### Electrical Phlegm Suction Unit

Portable absorb phlegm apparatus designed based on developing orientation of similar products at home and abroad is a new generation of oil free lubrication suction device, which is suitable for use by the patient who has difficulty in phlegm removal due to illness, coma and operation, as well as for aspirating such liquid as pus and blood during the clinical practice. It is the commonly applied medical device for use in the emergency room, operation room, and for nursing in sickroom and home health care.

- ❶ High negative pressure
- ❷ Large flux
- ❸ Oil free lubrication pump
- ❹ Embedded liquid holder
- ❺ Low noise operation

**plusmed**  
health management

Order Code: M024901

### Tubular Pressure Mattress System

This product is intended to help and reduce the incidence of pressure ulcers while optimizing patient comfort. For emergent CPR, please pull the CPR yellow strip outside quickly to reduce the air fast.

- 1 Air ventilation function
- 2 Tubes on A-B lines provide alternating inflating
- 3 CPR - Fast Air Release Valve
- 4 Made of heavy duty, premium PVC
- 5 Easy to use
- 6 Adjustable
- 7 Low noise, low vibration, low temperature
- 8 Easy fixing on bed frame with hooks

Order Code: M022141  
Product No:8698864007123

## pM-2012 PLUS

### Bubble Pressure Mattress System

This product is intended to help and reduce the incidence of pressure ulcers while optimizing patient comfort. It also provides individual home care setting and long term care of whom suffering from pressure ulcer. Pain management as prescribed by a physician.

- 1 Easy to use
- 2 Adjustable
- 3 Low noise
- 4 Low vibration, low temperature

Order Code: M022180  
Product No:8698864013322

## pM-TE01

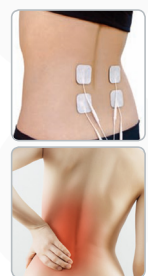

### TENS + EMS Electrical Stimulator

Plusmed TENS+EMS Dual Therapy System is a dual channel digital TENS/NMES electrical stimulator for active treatment application. Transcutaneous Electrical Nerve Stimulator (TENS) can be used for symptomatic relief of chronic intractable pain. Neuromuscular electrical stimulation (NMES) can be used for relax muscle spasms, prevent or retard disuse atrophy, increase local blood circulation, re-educate muscles or maintain / increase the range of motion.

- 1 Digital technology
- 2 2 channels
- 3 8 different programs
- 4 Low battery indicator
- 5 12-step-timer
- 6 Adjustable intensity and treatment time

**plusmed**  
health management

### Wheelchair

pM-WCH46 Wheelchair provides the user with comfort, confidence and freedom thanks to its easy handling.

- ① Elevating arm rest
- ② Foot rest
- ③ Adjustable and removable leg rest

Order Code: M022160  
Product No:8698864010291

## pM-WCHA

### Wheelchair

pM-WCHA wheelchairs provide the user with comfort, confidence and freedom thanks to its easy handling.

- ① Detachable arm rest and foot rest
- ② 8" castor and 24" solid Mag rear wheel
- ③ Seat Wide can be adjustable in: 16", 18", 20"

Order Code: M022260  
Product No:8698864012172

## pM-WCHP EM

### Wheelchair - Battery Powered

pM-WCHP Wheelchair is designed to improve the users comfort, while it is easy to handle.

- ① Control panel
- ② Elevating arm rest
- ③ Elevating foot rest
- ④ Folding chassis

Order Code: M022166  
Product No:8698864013513

## pM-CH320

### Reusable Hot / Cold Pack

The use of heat and cold is a standard treatment for a variety of injuries. The type and age of the injury or condition indicates whether hot or cold is appropriate. The use of hot and cold packs is one of the simplest methods of applying heat or cold to the affected area. Cold pack decrease the bruising associated with sprains, as well as the swelling and help to relieve the pain associated with these conditions by numbing the area. Hot pack relaxes muscles and improves blood circulation and produces a soothing effect on the body, further aiding in the healing process.

- ❶ Comfortable and convenient application
- ❷ Provides effective relief from muscular pain
- ❸ Helps reduce swelling
- ❹ Great for treating a wide range of tissue injuries
- ❺ Reusable pack is perfect for continuous treatment at home

Order Code: M024857  
Product No:8698864007758

## pM-CS01

### Local Anesthetic Freezing Spray

pM-CS01 Ethyl chloride is manufactured to make local anesthesia for skin by providing excessive cooling. Further, it can be used for the injuries of the soft tissue, edema and similar illnesses that occur because of sport activities.

- ❶ Anesthesia prior to injection
- ❷ Relief in sport injuries
- ❸ Eliminates edema

Order Code: M020601  
Product No:8698864011267

## pM-BS01

### Electronic Baby Scale

Baby Scale measures both your baby's weight and length for you. With this scale, it is so easy to keep track of your baby's physical development. It can be used both at home and hospitals.
