

pM-K01K | Blood Pressure Monitor - Talking

Based on personal demand the talking function can be switched on or off. The unit offers a full talking guidance from start until the blood pressure is displayed. The “Movement Detector” helps reminding the user to remain still and is indicating any body movement during measurement. The specified icon appears once a “body movement” has been detected during and after each measurement. This blood pressure monitor has passed the criteria of the European Society of Hypertension by achieving all requirements.

- 1 Real Fuzzy Technology
- 2 Talking function (TR, EN, FR, KU, AR, FA)
